

Slide 1

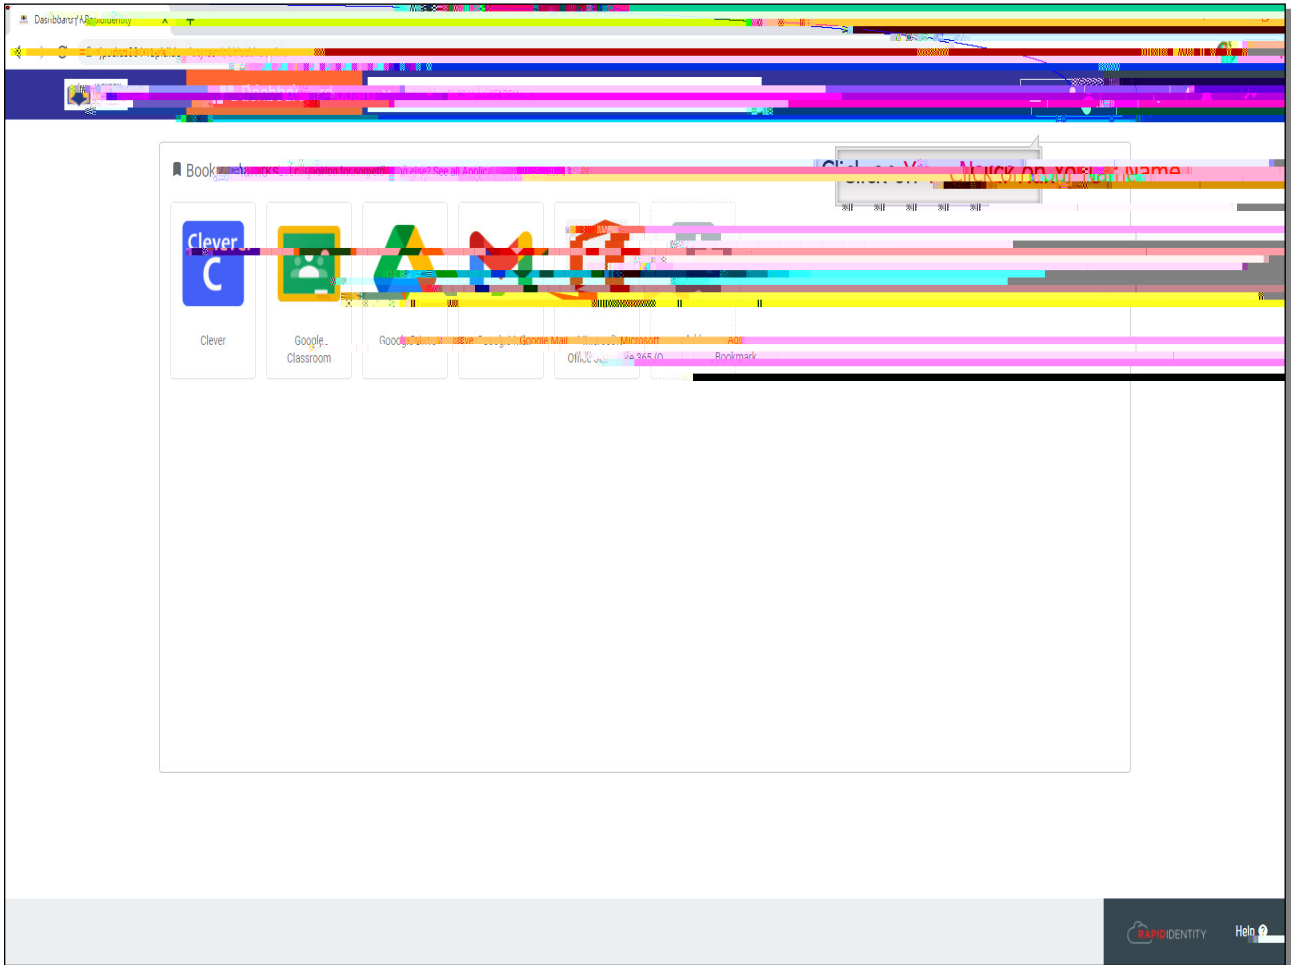

Adding a Mobile Phone Number to Receive SMS MFA Messages

Jackson Public Schools | [Support & Technology](#)

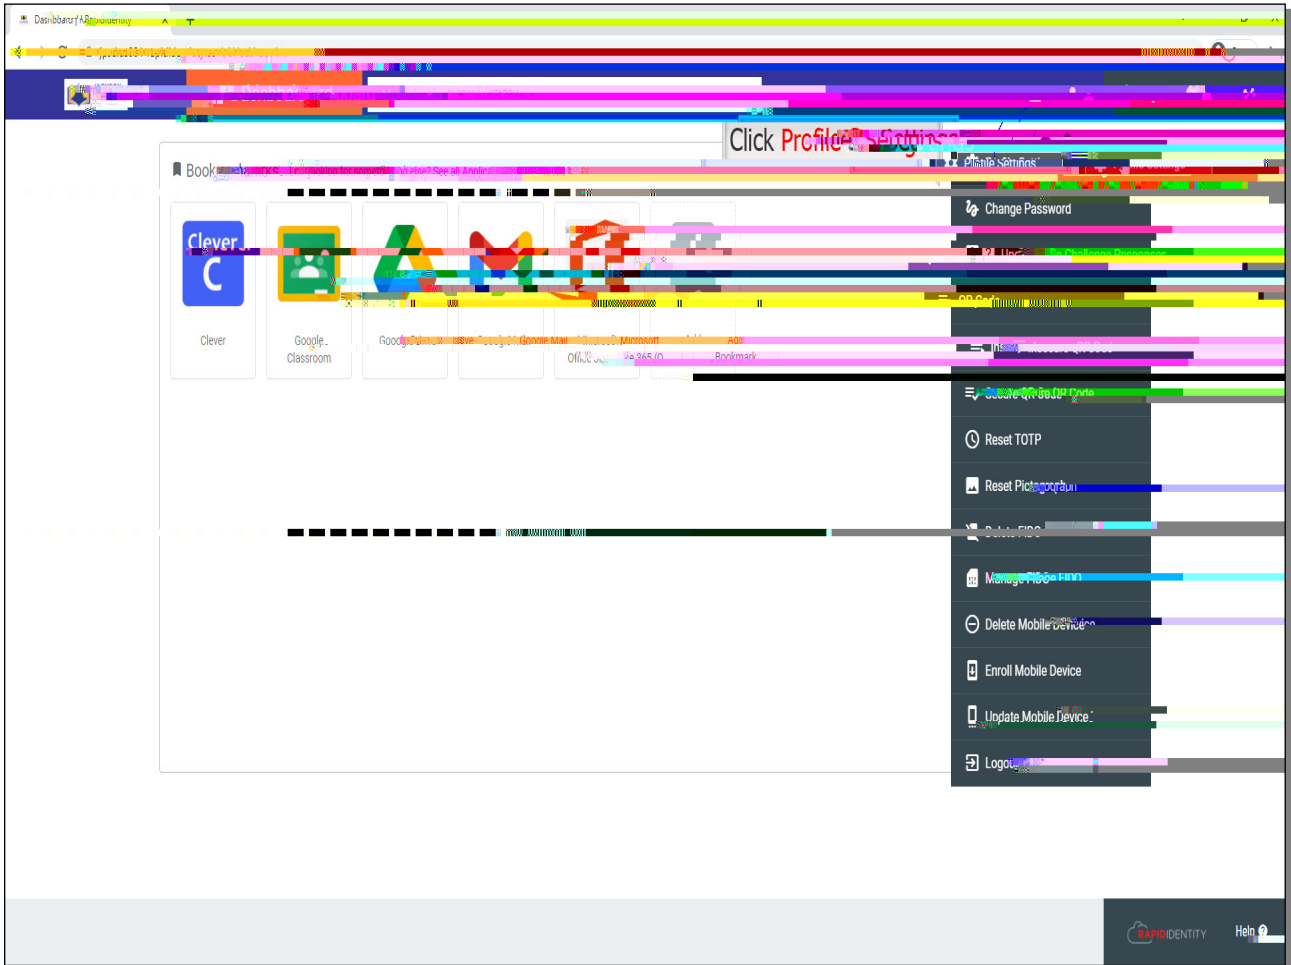

Slide 2

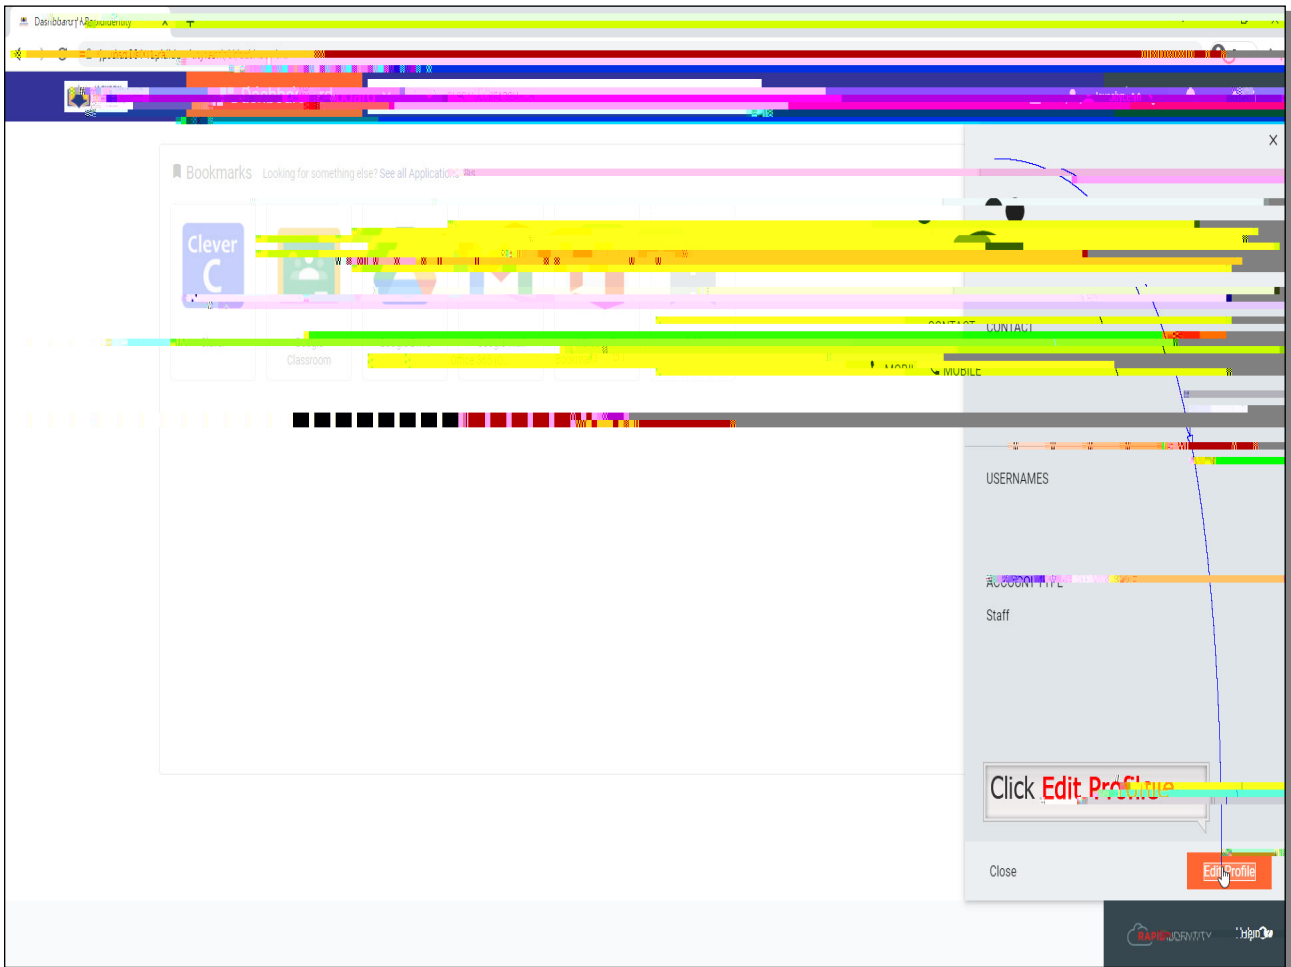

Click on **Your Name**

Slide 3

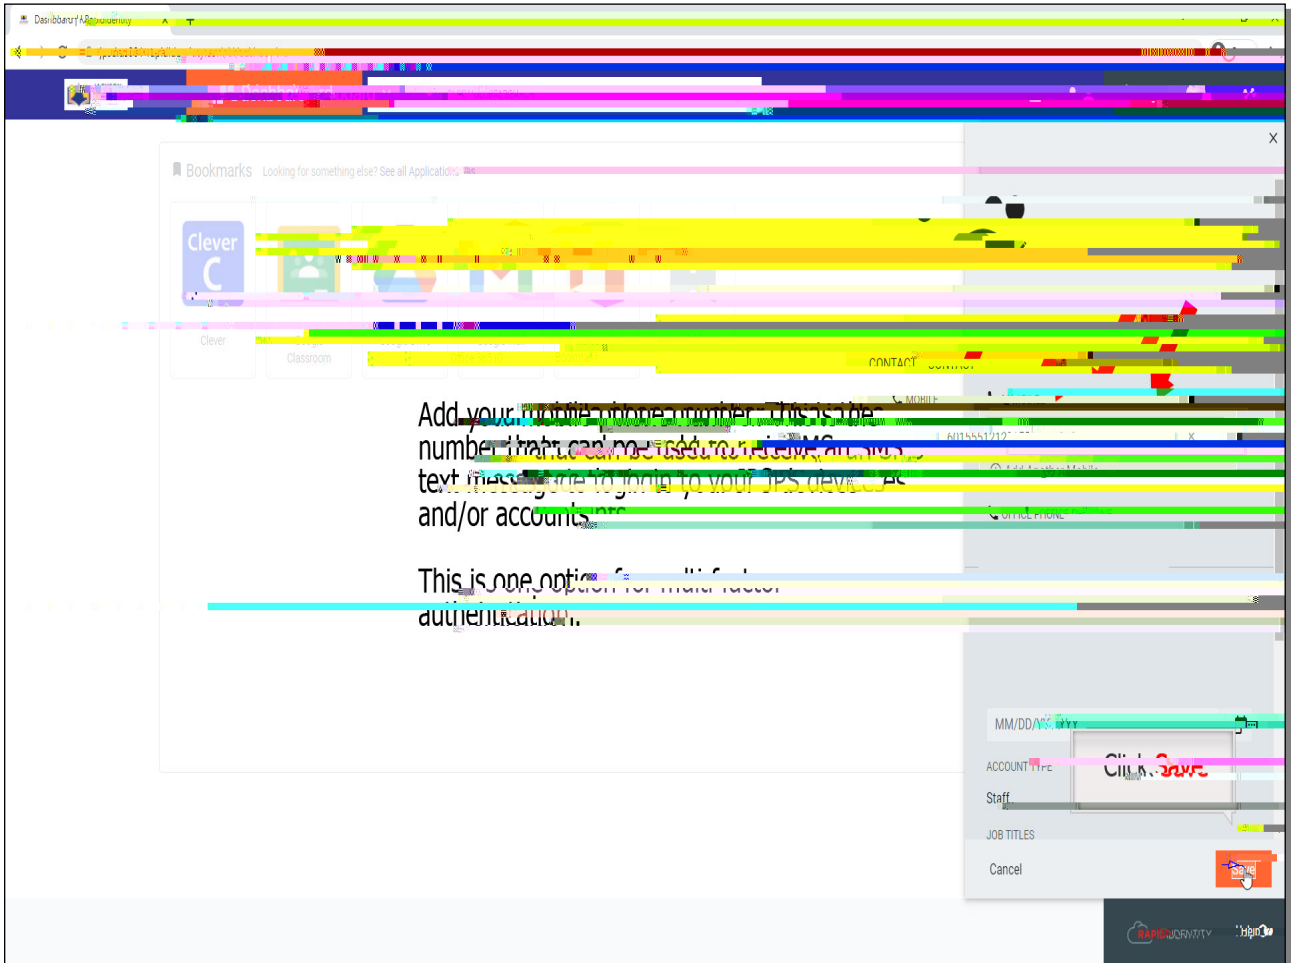

Click **Profile Settings**

Slide 4

Click **Edit Profile**

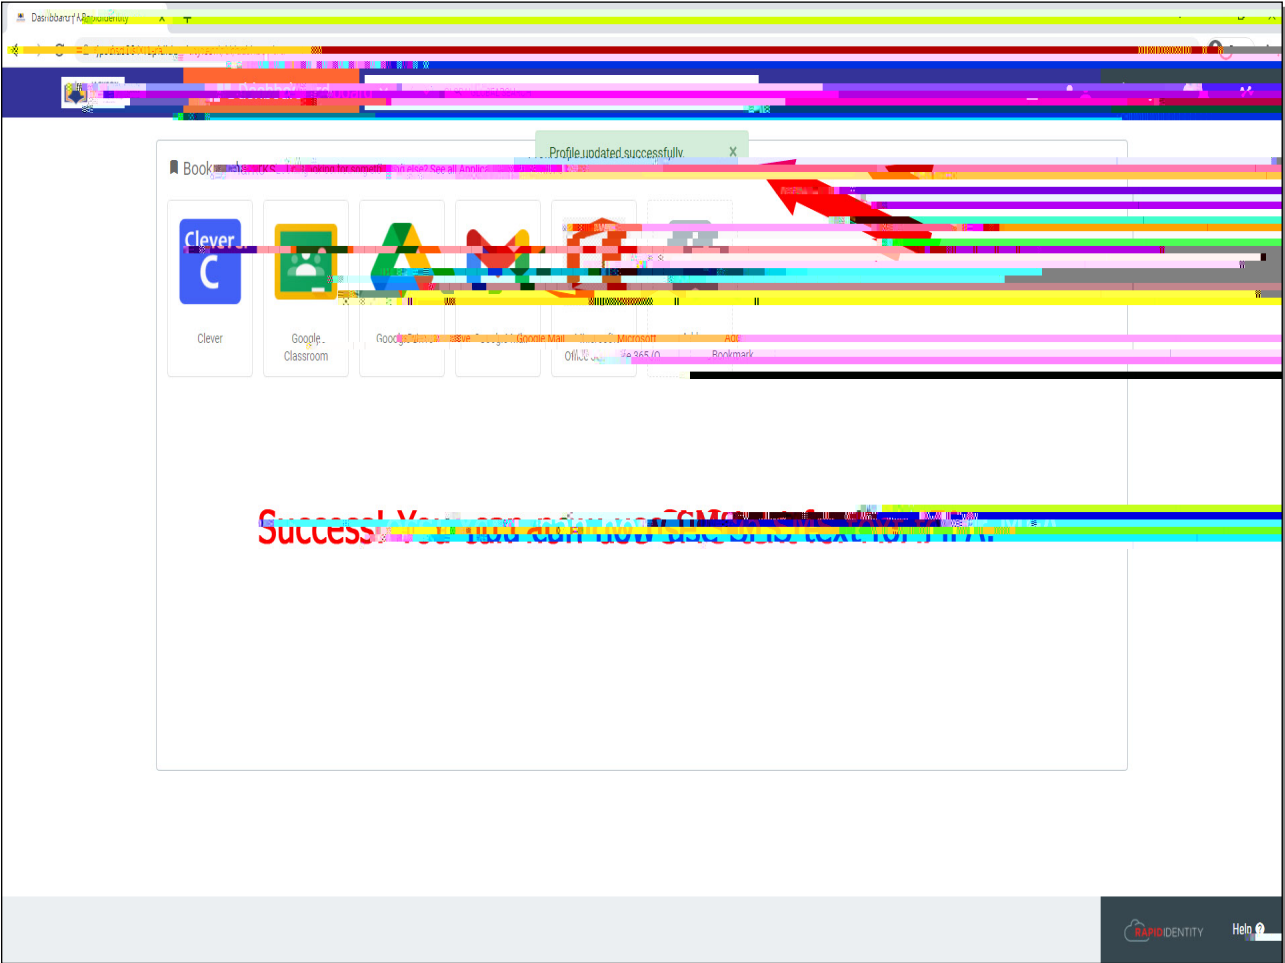

Add your mobile phone number. This is the number that can be used to receive an SMS text message to login to your JPS devices and/or accounts.

This is one option for multi-factor authentication.

Click **Save**

Slide 6

**Success! You can now use
SMS text for MFA.**

You have now completed the process and will receive SMS text messages for multi-factor authentication.

Each time you login to the portal or to your JPS email account, you will be required to use this number.

You can add additional MFA methods to your account and use them at any time.
